

WASH POWER™

New and More Affordable Model **XB50 - Finishing**

Wash robots for finishing barns just got simpler and more cost efficient

- **Plug & Play** - Get started in seconds with a simple 1-page touchscreen interface
- **Lower cost** - Enjoy effective automated power washing at a more affordable price
- **Simplicity** - Easy to maintain with fewer things to worry about

With the XB50 there's no reason not to start using a washing robot in your finishing barns. With an optimized design focused on cost-efficiency and simplicity, it's a no-brainer to make the transition to a wash robot and reduce strenuous manual power washing at your farm.

After years of producing washing robots, we at Washpower have learned that not every farmer needs a complex washing solution. In many cases, a simpler solution can be just as effective while keeping costs lower and user-friendliness high.

With the XB50, you simply place your order, and we ship it directly to your farm. Its intuitive interface allows you to set it up in seconds and start enjoying the same benefits as with our other wash robots - automating up to 90% of the cleaning process. It's a simple and reliable tool, that reduces the need for manual power washing, ultimately reducing your manual labor and improving the work environment for you and your employees.

Specifications for the XB50

TECHNICAL DATA

Dimensions WxDxH 63 x 26.6 x 43.3 inch

Weight 518 lbs

Power supply 110 V

Amperage 12-14 Amp

Water consumption Min. 20 / max. 30 l/m
Min. 5 / Max. 8 gallons/m

Max. water pressure 2900 psi

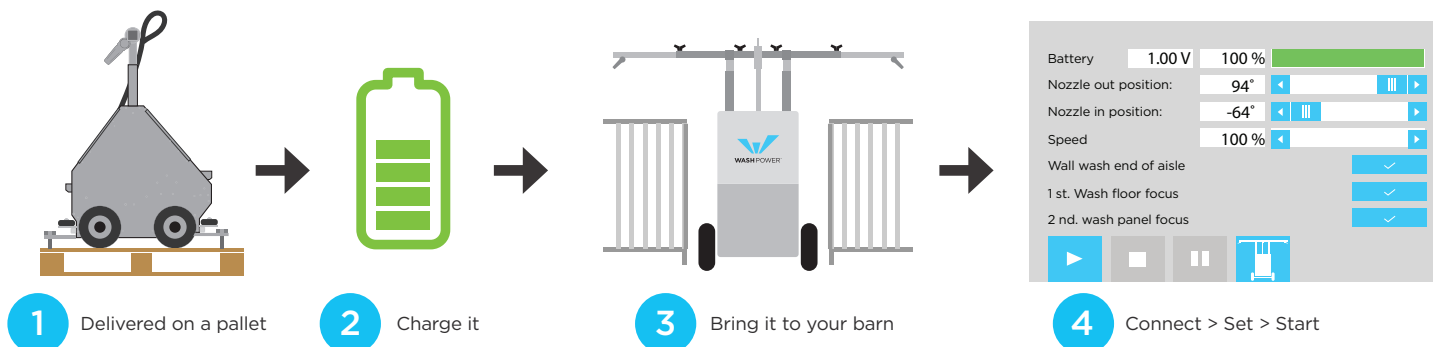

High pressure pump External

Max. water temperature 140° F

In a few steps

From delivery to washing

Be more productive and let
robotics do the hard work
